BIOSAFETY COMMITTEE
Office of Research Affairs, Box 0962
University of California, San Francisco

DATE: March 28, 1990

TO: John R. Cashman, Ph.D.
Pharm. Chem.
Box 0446

FROM: BIOSAFETY COMMITTEE

RE: STATUS OF YOUR BIOSAFETY APPROVAL # R-121-01

In accordance with the Biosafety Committee's responsibility to review Recombinant DNA applications at appropriate intervals, the Committee is checking with all Principal Investigators who were issued permits in 1986.

Please complete this one page questionnaire and return it to: Biosafety Committee, Box 0962. A copy of your approved application is attached. If you have any questions, contact the Biosafety Committee office at 476-2198.

Please check the appropriate line:

___ This protocol is no longer active and there are no plans to reactivate this study in the future.

___ There is a more current approval that includes the research described in the above numbered approval. The approval number of the more current one is _____.

✓ This protocol is currently active. If so, 1) please attach a copy of the current laboratory certification. All labs must be certified at least once every three years. For laboratory certification, contact UCSF Biosafety Officer, at 476-2097. 2) Has the nature of the work changed as to alter any aspect of its biosafety? 2601 X Yes ___ No. If yes, please describe.

Comments Expression of proteins, see enclosure

I certify that I am familiar with the NIH Recombinant DNA Guidelines (enclosed) dated May 7, 1986 and the UCSF Biosafety Manual and agree to observe the safety procedures contained therein.

John Cashman — May 1, 1990
Signature of Principal Investigator — Date

Warren Hensi — 6/8/90
Approved: Chairman, Biosafety Committee — Date

Revised: 3/90
